# MAY KILL QUEEN LIL

Private Letters From Hawaii State That She is In Peril

THEY WILL HAVE NO MONARCHY

Should the Queen Be Restored She Would lie a Dead Woman Within Twenty-four Hours.

Sax Francisco, Nov. 17.—Private let-ers received here from Honolulu by the ant mail indicate that trouble is expected there. One written by a leading chant to a well-known San Franciscus: was shown today on condition that no names be published. The letter declared that if the queen is restored she would be a dead woman in twenty-four hours. It further says that Hawaii would have no monarchy; that neither the next queen nor Princess Knoulant would be allowed to reign; that the aupporters of the provisional govern-ment would fight and face death if need be, rather than to submit to the restoration of the menarchy. Another reather is of a like spirited tenor. It sist the administration policy to the good government. The recipient of these letters, who is thoroughly in-formed regarding Hawalian affairs and disposed to take a conservative view of things, says that they unquestionably reflect public sontiment at honolulu.

# POWDERLY HAS A SCHEME

Organizations

PSILADELPHIA, Nov. 17.—Mr. Powderly addressed the Knights of Labor general assembly this morning in a spirited speech, and it is believed that he replied to the charges made against himself and A. W. Wright and John Devilin of the executive board by Secretary Treasurer Hayes. The master workman was on the floor when the neon adjournment was taken.

The initial step in the project of Grand Master Workman Powderly for the amalgamation of all labor bodies was taken tonight, when a dozen representatives of several labor organizations held a secret conference on the subject. Who the conference wors and where the conference was held was not divulged, but it was stated late tonight that the plan met with favor, and would be brought before the present season of the K. of L. general assembly. Should the knights adjourn without naming a time and place for the next meeting, as is the hope of the projectors, the movement would in a massure be consummated, for the executive board would then agree with the committees of other labor organizations upon a gathering place next wear. A labor congress woult result it ganizations upon a gathering place next year. A labor congress would result, it is believed, and amalgamation would follow. It is said that the conferces represented tonight 750,000 members of organized labor.

# DEFINING RAILWAY RATES.

Interstate Commerce Commission

WASHINGTON, Nov. 17 .- The interstate commerce commission today, in an opin-ion by Commissioner Clements, an-nounced its decision in the cases of Bianton Duncan against the Atchison, Topeka & Santa Fo system and against the Southern Pacific company and the Louisville & Nashville Rairroad company. The decision contains important rulings on rates on household goods and immigrants moveables. Under the western classification there are two west bound carload rates from Mississippi river points to the Pacific coast termi-nals on goods termed "emigrants moreables," one a general class rate and the other designated "commodity" rate, which is less than the general rate. The latter rate is published as being open to intending settlers only, but in practice it is given to chippers indiscriminately. The commission holds that there is no necessity for retaining the two rates and that the best bound rate on emigrants' moveables from Louisville to Los Angeles ought not to be in excess of the amount of the "commodity" rate

a Tempestuous Voyage Across the English Channel.

London, Nov. 17 .- One of the worst gales of the season is raging on the west-ern and southern counts of Great Britain. The storm set in yesterday and has been increasing in violence ever since. Many vessels are in danger and it is thought that the maritime casualiit is thought that the maritime casuali-ties will be great. A tremendously heavy sea sprang up in the English channel and the Irish sea, and many vessels have experienced great difficulty in reaching port. Fishing and coasting vessels made for the nearest shelter, but all did not reach their havens of refuge in safety. The British bark Lowestoft was wrecked in the Tyne this morning. She went ashore in a bad place and She went ashore in a bad place and She went ashore in a bad place and the sea made a clean breach over her. The masts went over the side and the crea, were obliged to lash themselves fast to the stumps standing above deck to keep themselves from being washed overboard. They would in all likelihood have been drowned had it not been for the efforts of the life saving crew and the coast guardsmen. The surf was renning so high that it was uncleas to attempt to hunch the was uscless to attempt to launch the lifeboat, so the rocket apparatus was brought out and a line was thrown over the wreck. A breeches buoy was rigged and all on the bark were brough ashore

Black Rock's Rough Voyage. There was an exciting scene at Liverpool upon the arrival there at noon today of the steamer Black Rock, from
Dublin, The steamer is one of the regular
Dublin packets. Shortly after the steamer
left Dublin she got the full fury of the
gale and made the very worst kind of
weather of it. She had a large number
of cattle on board and as the vessel of cattle on board and as the vessel pitched and rolled some of thom were thrown off their feet and had their legs broken of were otherwise injured. The storm continued to increase in severity and finally the steamer was thrown down on her beam ends. The freight on board shifted and this prevented the vessel from righting. The cattle were piled in a struggling, bellowing mass against the lee bulwarks and the greatest excitement prevailed among the passengers. The efforts of the crew were directed to shifting the chron and rest per rected to shifting the cargo and getting the vessel as near as could be on no even keel. The greatest difficulty was met with in extricating the cattle and keeping them in their proper places when the, were released. Finally the steamer came up sufficiently to allow of her engines again being used and then pro-ceeded on her voyage. She had a very bad list, however, when she came into port, and it was scarcely possible to

When the cattle were put on the land-ing stage it was found that nearly all were more or less injured. One hundred and sixty of them were so badly hurt that it was necessary to kill them at once. Lennon's Appeal From Judge Taft's Decision

ARGUED IN SUPREME COURT

Lennon Was Fined Because He Refused to Haul Boycotted Cars

WASHINGTON, Nov. 17 .- An echo of the famous Toledo & Ann Arbor strike of last spring was heard in the supreme court of the United States today. It will be remembered that Judge Ricks of the United States court at Toledo im-posed a fine of \$50 on James Lennon, an engineer on the Lake Shore railroad for contempt of court in refusing to haul his train, because it contained some Toledo & Ann Arbor cars con-signed to the Lake Shore the employees some Toledo & Ann Arbor cars consigned to the Lake Shore, the employes of which refused to handle Toledo & Ann Arbor cars. He refused to pay the fine and was committed to the custody of the marshal. Application was made to the circuit court for his release on a writ of habeas corpus, but it was denied and Lennon appealed to the supreme court of the United States. The case was argued today. Argument was continued until tomorrow by the attorneys for the railroad.

O, Christtess women, you ought to be concerns about your soul?" pleaded Evanged Mills to 4,500 men and women last night and ico of them responded to his ap-peal. More than half a thousand per-sons signed the cards which the ushars passed around to those who were seeking

At 7:30 o'clock every seat in the hall was taken, every possible inch of room had been filled with chairs, in the main sides and around the sides of the auditorium and galieries fully 800 persons were standing and almost as many a see were at the doors clamoring for admission. A vast sea of faces stretched out from the paipit and swept up to the great cross braces of the gallery. The ushers were powerless to handle the great throng, and those in the rear pushed and wiggled themselves forward until almost 4,500 persons were packed in like the traditional sardines. Not only were the seats and aisles filled, but every box held twelve or fifteen persons and several hundred found places on the stage at the sides of the choir seats. It seemed Thursday night as if the limit of the half's capacity had been reached, but last night's immense throng exceeded by several hundred that of the night before and was the greatest crowd that ever gathered in the half, and as great as ever can be assembled there. It was announced that an overflow meeting would be conducted in the lecture room and that those who would prefer to go there rather than stand up would be welcome, but the crowds preferred to stand and listen to the great revivalist.

Guilty of Murdering His Child.

Ellistrows, Pa., Nov. 17.—The jury in the Harry Johnson homicide case, after deliberating from 12:30 o'clock to 7:20 this evening, returned a verdict of guilty of murder in the first degree. Johnson, on July 25, took his 4-year-old daughter, Bertie May, on a drive to find a home for her. One week later her dead body was found flusting in the Lehigh river near Allentown. The defendant's stories of where he put the child varied, but were mostly to the effect that he gave her to strangers whose arms or address her did not know or ask.

nothing had happened;
The text of the evangelist was taken from Luke xxii, 44, "And being in an from Luke xxii, 44, "And being in an agony he prayed more carnestly." The speaker said there were two men in the lible who prayed in the same spirit as Christ. One was Moses, when he went up unto the Lord to make atonement for the sins of the children of Israel. The other was Paul. "How many of you

pray with their earnestness for the lost souls among you?" he asked. Men become excited over the getting and losing of gold; they get excited over politics. The speaker related his ex-perionce at a national convention when the delegates went wild—but failed to elect their candidate. Men become ex-cited over scores of things. Why should they not be exercised concerning the salvation of their souls, and the souls of intense soul-enveloping spirit of prayer that men are brought to God.

Reasons for Earnest Prayer "I want to suggest some reasons why ferrent carnest prayer is never in vain.
It reveals fully the spirit of God and brings you into unity with his work.
Jesus Christ was no more designed to save the world by the measure of his in fluence than you and I are designed to save it by the measure of our influence. He cannot save it without the aid of earnest praying men and women. The church of Christ is prepared to be the mother of her children. One reason why so many of God's children have been born prematurely is because they had no mother in God. You have turned away from the cold form of the young mother lying cold, listened to the cry of the little one for whom she has given up her life, and heard some one say it were better if the child had died with the mother than with its mother than to grow up with out care and love. This is too often the case with the children of the caurch, it can give them borner, no nourishment and
they perish in the cold. A young mun
in Indianapolis was asked by a paster to
join the church. The preacher said:
Your mother and eister are members.
Why don't you join? 'I don't believe in
your religion, said the young man
and I don't believe my mother and my
inter do. Do you maneaus the thin sister do. Do you suppose they think we shall be separated in another world? They don't, I know; for they never mentioned such a thing to me. If they believed in your religion, they would manifest more concern, and without JEFFERSONVILLE, Ind., Nov. 17 .- Audoubt the young man was right. Many a sinner is kept out of the church through the apathy and indifference of church members.

Saved by a Wife's Prayers "I remember a woman - the wife of banker who came to see me about her hustand. She said she had worried husband. She said she had worried about his spiritual welfare for two weeks. She had asked him to pray and he rifused. He had refused to permit her to pray for him. Til die, said she, if my husband does not come to Christ. Then I believe he will come, said I. The man was finally induced to come to church by his wife. His wife prayed for him at the mesting and he was brought to Christ. Such concern as this is only the natural result of clear views as to the condition of just men. Michael Angelo used to short himself up all night with a corps, in order that he neight better portray in marble how a densi man looks. Would to doot there was some way of showing christians how a soul lucke that is without hope and without God. It is strange that, knowing what we know, we can go dancknowing what we know, we can go danc-
